Our curriculum is based on the belief that children learn through play and honors each child's individuality and progressions of development. We offer Handwriting Without Tears, CATCH PE, Scholastic Early Childhood Program, and the TEA Texas Prekindergarten Guidelines. Our classrooms are engaging with fun and educational centers: dramatic play, library, writing/art, science, math, blocks and manipulatives. The teachers base their weekly plans on different themes and units that are relevant, understandable, and suitable for the children's age level, and capable of leading to many activities and discussions.
